

## WHY HE DOES IT

Druggist W. W. Keyser Gives Reasons for Selling at Half-Price.

"It isn't often that I have faith enough in the medicines put up by other people to be willing to offer to refund the money if it does not cure," said Druggist W. W. Keyser to one of his many customers, "but I am glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that plan." "The Howard Co., in order to get a quick introductory sale, authorized me to sell the regular fifty cent bottle of their specific for half-price, 25 cents, and, although I have sold a lot of it, and guaranteed every package, not one has been brought back as unsatisfactory. "One great advantage of this specific," he continued, "is its small size and convenient form. There are sixty doses in a vial that can be carried in the vest pocket or purse, and every one has more medicinal power than a big pill or tablet or a tumbler of mineral water. "I am still selling the specific at half-price, although I cannot tell how long I shall be able to do so. Any person who is subject to constipation, sick headache, dizziness, liver trouble, indigestion, or a general played-out condition, ought to take advantage of this opportunity. If the specific does not cure them they can come right back to my store, and I will cheerfully refund their money."—Advt.

## Jamestown Exposition.

On the 19th day of May, 1907, on the waters of Hampton Roads and on its shores in Norfolk county, Va., the three hundredth anniversary of the first permanent settlement of English-speaking people in America will be memorialized by the Jamestown Exposition. This date will be Jamestown Day. There were Spanish settlers in America before Jamestown, and the French had established some villages along the Canadian river, which were named after the reigning monarch of England, formed the first village in the western world where English was spoken. The descendants of the original settlers are scattered throughout the United States. Recently, when Daughters of the American Revolution visited Jamestown Island, it was found that no less than fifteen visiting members of the society traced their ancestry directly to some inhabitant of Jamestown. The Exposition management have discovered many Jamestowners, and have invited them to participate in the celebration on the 19th day of May.

## People Warned by Telephone.

The utility of the telephone was demonstrated Sunday evening, when the Board of Health of Rahway first learned of the possible contamination of that city's water supply. The medical inspector, Dr. Sell, and one of the members went to the central office and directed the operator to notify all subscribers to boil the city water before drinking the same, as a precautionary measure. In a few minutes some five hundred families, representing possibly two thousand souls, were notified of a possible danger and enabled to take steps to protect themselves. Great indeed is the telephone.—Rahway Advocate, March 22.
